CAPITAL

WHO WE ARE

We are an international investment fund **UNICAP GLOBAL** which implements large-scale infrastructure social projects based on the principles of **PPP, PFI, ESG**.

KEY EXPERIENCE

Thanks to joint work with a number of international investment companies, the **CULLIGAN** Corporation development project was implemented, which made it possible to significantly increase sales, provide the highest level of water quality for millions of people in more than **20 regions** and increase the corporation capitalization by 10 times! to record numbers **from \$600 million to \$6 billion**.

WHAT WE OFFER

This experience allowed us to move on to a larger project - **VODPROM**. **We offer partnership in the implementation of social and infrastructure projects in the field of municipal water treatment at the expense of our own investments**

MISSION

Being in close partnership with the state, our mission is to attract innovative technologies and modern equipment from everywhere for the benefit of society

ADVANTAGES OF PARTNERSHIP

The partner is the most reliable business entity in the modern developed economy - state;

Projects are funded by **UNICAP's** own funds;

Opportunity to expand existing markets;

Expansion into new markets;

Significant increase in sales due to a large portfolio of projects;

A wide range of international, high quality infrastructural, socially and politically significant projects that generate stable long-term money flows;

Projects have sufficient investment capacity and a long-term market guaranteed by the state;

High level of stability;

Geographic and industry segmentation of projects;

A large portfolio of projects in the promising market of national resources;

An important humanitarian mission to implement socially significant infrastructural and environmental initiatives.
